

FLASH 12V

Rechargeable flashlight

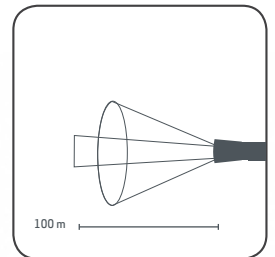

FLASH 12V is another new and very cool rechargeable flashlight from SCANGRIP of extraordinary high quality designed for the professional user.

The small FLASH 12V is compact and designed to have in the pocket and always at hand when needed. The flashlight is easily charged on the fly, you just plug it directly into the cigarette lighter socket in your car and the flashlight will be recharged and ready when you reach your destination. Without the need of charger device, cable, or batteries!

Despite its small size the FLASH 12V is providing an extremely bright light output of 130 lumen, and the light output reaches up to 100 m.

By means of the focus function you can vary the beam angle from 10° to 70°, from concentrated and focused light beam angle to long-distance light.
